

ANNOUNCEMENT

23rd December 2025

According to article 5.1 of the Landsverordening op de Kansspelen (LOK) paragraph 8, the CGA can grant an applicant a provisional license of 6 months, followed by an additional 6 months to allow the licensee to comply with its license condition. After this last provisional license, the LOK requires the CGA to take a decision on the final indefinite license taking amongst others into account the items described in article 2.2 paragraph 2 of the LOK.

Given the high amount of information collected from the operators and the time needed for proper vetting thereof, the CGA has not yet reached a final decision on the indefinite license for a group of operators which expiry date of 2nd period of provisional license is nearby.

The CGA assessment for this group is still in progress, and no final decision has been made at this stage. Until a final decision is rendered and communicated to the operator, the current status remains unaffected.

The respective operators will receive a separate letter from the CGA stating the above.
